

1 Photos outside

Example house: a simple cream three-bedroom bungalow.

1 Front view

Stand near the gate.
Fit in the whole roof,
front door and ground.
Show the compound
and entrance too.

2 Front-left angle

Move to the left.
Show the front and
left side together.
Keep the phone level.

3 Front-right angle

Move to the right.
Show the front and
right side together.
Add a rear view if
you can reach it safely.

1 Photos inside

Bedrooms and all other rooms: 3 photos each. Bathrooms: just 1.

1 From doorway

Stand at the entrance.
Show how the room
opens up, including
the floor and ceiling.

2 First far corner

Walk to a far corner.
Turn back towards
the entrance.
Show doors and the
way to other rooms.

3 Other far corner

Move to the other
far corner.
Show the walls and
windows missed before.
Skip this for bathrooms.

Your three-part checklist

1 Photos: 3 per bedroom and other room. 1 per bathroom.

Kitchen

3 photos from different angles

Every bedroom

3 photos from different angles

Bathroom

1 clear doorway photo

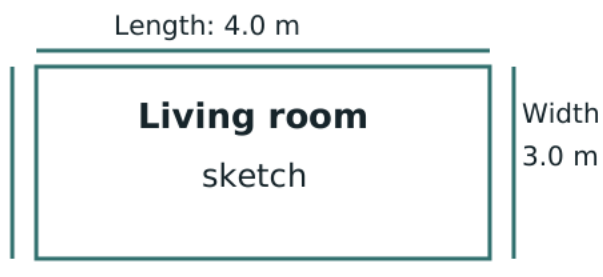

2 Walkthrough video

Record one slow video: start outside, then visit every room.

Include bathrooms. Keep filming as you walk between rooms.

Say each room name. Pause briefly; turn slowly.

3 Two reference measurements

Measure the living room only:

1. Length

2. Width

Use metres or feet consistently.

Example numbers only. Use your own living room measurements.

Before you start

Use daylight, open curtains and turn on room lights.

Clean the lens. Hold the phone sideways and level.

Use the normal 1x camera. Avoid filters and digital zoom.

Send the original files

Label photos by room, for example: Living room 01, 02, 03.

Send the original photos, full video and those two measurements.

Choose original quality or send as files where available.
